

Easily integrate crypto wallets into your app

With the Conduit API, you can create user accounts to hold, send and receive crypto.

Start building

Explore docs >

Why use Conduit for your wallets?

Instantly create user accounts as needed

Each account receives a unique account number and can be managed separately.

Current Accounts

-  Alexis Luque
aluque@gmail.com ✓
-  Juanita Costa
jcosta@gmail.com ✓

Add Another Account +

Your Transactions

| | |
|---|--------------------|
|  Sent USDT TODAY | -70.00 -\$70.00 |
|  Received USDT JAN 16 | -30.00 -\$30.00 |
|  Received USDC JAN 17 | -50.00 -\$50.00 |

Track balances and transactions in real time

Our automated ledger lets you show transactions with one API call.

Allow multiple currencies under one account holder

Let users hold value in multiple stablecoins to avoid inflationary

Your Funds

\$9,530.76

Let users hold value in multiple stablecoins to avoid inflationary fiat currencies.

Build wallets into your app, faster

Check out our guides for building wallets with the Conduit API

Create account

Get account details

```
1 curl -i -X POST \  
2 https://sandbox.conduit.financial/accounts \  
3 -H 'Content-Type: application/vnd.api+json' \  
4 -H 'X-API-Key: YOUR_API_KEY_HERE' \  
5 -H 'X-API-Secret: YOUR_API_KEY_HERE' \  
6 -d '{  
7   "data": {  
8     "relationships": {
```

- Check balances
- Create account holder
- Get allocation details

```
9   "relationships": {  
10     "account-holders": {  
11       "data": [  
12         {"type": "string", "id": "id:ah1:366CSYgJpUJxQJiFTfoFvJ0NuJp"}  
13       ]  
14     }  
15   }  
16 }  
17 }  
18 }
```

”

Embedding crypto wallets into the Conomy app allows us to offer users something more than just a better bank... It allows us to offer the future of money.

Pablo Acuña
CEO, Conomy
