ABOUT

Vision

To be the highest quality, customer-centric cold chain solutions provider

“The new age of cold chain brings new standards of

in North
America.

Mission

To design and
deploy modern
facilities and
provide
innovative
solutions through
the practical
application of
technology,
creating
meaningful value
for our customers
while helping
them meet their

service and
higher
expectations
around the
entire
customer
experience.”

Chris Hughes
President & CEO

Arcadia

strategic
objectives –
establishing
**The New Age
of cold chain.**

MEET THE
TEAM

OUR ARCADIA STORY

Our world is more dependent on the successful integration of cold storage, logistics, and information transparency than ever before.

Arcadia™ was founded to satisfy customers who are looking for an elevated customer experience when it comes to their cold chain needs. And the only way to truly achieve that operating principle is to blend the design, development and operation of new, modern facilities with decades of

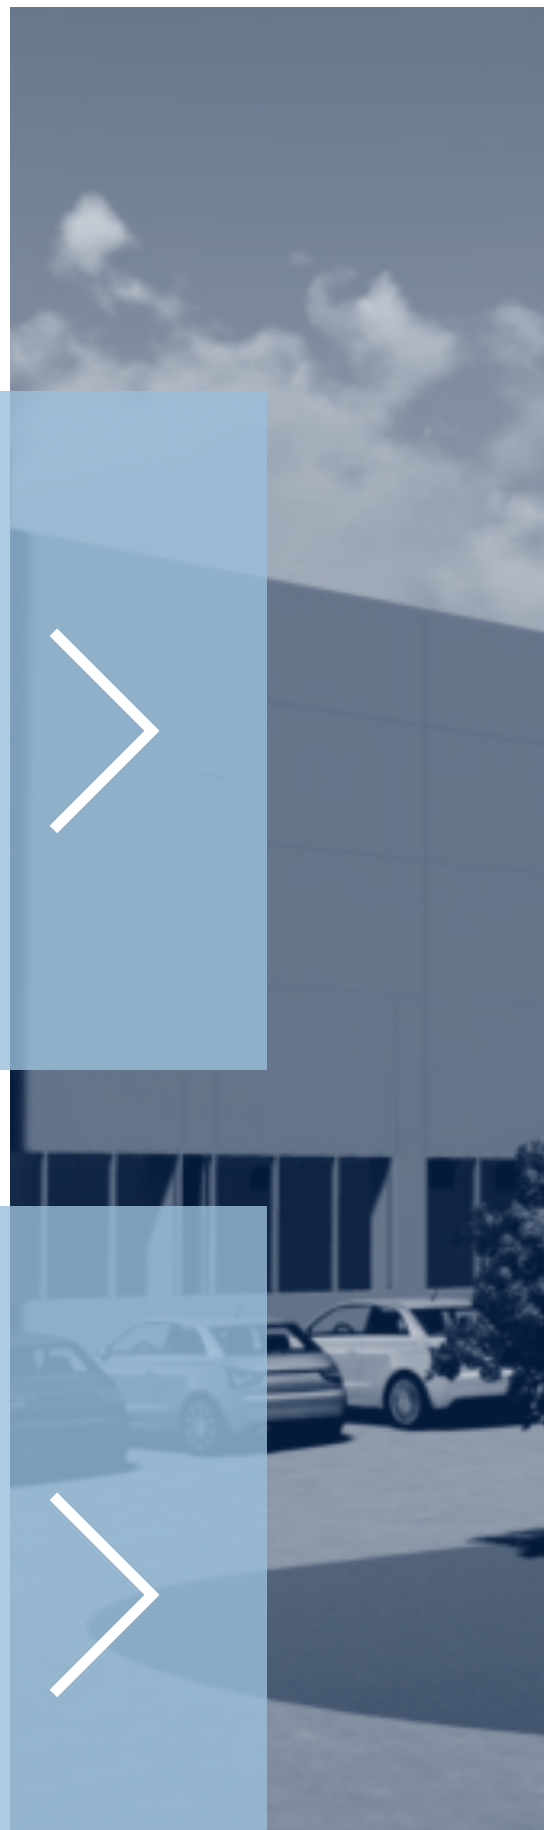

management experience and
practical operating know-how.

FACILITIES

Our facilities are brand new and include the most innovative design and information technology in the industry. They are strategically located to be valuable resources for your operation. Explore our locations today to see where Arcadia Cold can take you tomorrow.

LEADERSHIP

Our leadership has been purpose-built and cultivated from years of experience in the U.S. cold chain industry. Our platform is based on the premise that having these years of experience successfully solving problems alongside your team will add value to your process and help to meet your business

objectives.

VALUES

Our values represent more than words. Arcadia teammates at every level are held to the standards set by our values. We achieve success for our clients because we set community values that are designed to keep us at our best and to never settle for mediocrity.
