

1 Color — 2 Lens Type — 3 Top Frames

Best Seller

Fit & Material

The Kirby is made of hand-polished, flexible, and durable acetate. The frame measures 54-17-140 with a lens height of 40mm and a frame width of 138mm.

The Rx Lens Lineup

Single-Vision Progressives Readers

This is for folks who are nearsighted, farsighted, or even those with astigmatism. This Rx option will correct vision for a single distance. Our state-of-the-art lens lab produces optical powers from -14.5D to +5.00D and allows us to address prism, sphere, axis, and cylinder. All of our lenses are treated with anti-reflective, anti-scratch treatments to make sure you're always seeing 20-20.

The Kirby

I love my Kirby glasses! They're stylish and lots of great toppers to choose from.

**Love my Kirby Pair!**

I have never worn glasses this size, but come to find out I LOVE them! They fit on day one with a little adjustment, and got SO MANY compliments on them! Everyone was amazed at how I could change the tops everyday, and match any outfit I wanted. I really love having the option to just throw on a sun topper instead of wearing two pairs of glasses. ...[Read More](#)

**Love them!**

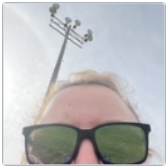

Received my first pair last week and I am loving them. The glasses alone are super cute- I got the clear ones- just on their own. The frames are super fun and durable too. Love that I can finally accessorize my glasses! Have to wear all the time. Worth the investment and I'm glad I finally made the decision to get these

**Great glasses for the price!**

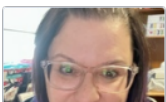

These glasses are great quality for the price. I have purchased other glasses within the same price range and they did not last. I love that you can customize the way they look by just snapping on a new top! The sun tops are better than other prescription sun glasses that I have had in the past!

**Love the Kirby**

Love the Kirby! I started out with the Larkin but wanted a slightly bigger frame and the Kirby is the perfect size. I got the clear frames for the versatility - I normally wear them with a topper and I didn't want the frame to clash. Pair eyewear is my favorite accessory. They are so much fun to wear and I always get compliments!
