OUR CUSTOMER INDUSTRIES

Solutions for an Electronic World

Our commitment to excellence is unmatched, and our experience, ingenuity, tenacity, technology, talent, and scalability allow us to set the standard by which others measure success. We have solutions for targeted segments with an outstanding customer focus.

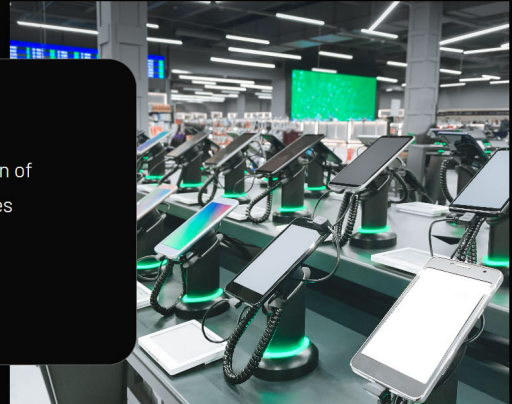

Telecommunications

Encore is a leading service provider to carriers, offering trusted OEM relationships that enable the maximization of asset value through sustainable solutions and extended life-cycles for telecommunication devices. Our efficient high-volume STB/CPE test, repair, and logistics programs are built on quality and speed, allowing for quick redeployment to subscribers.

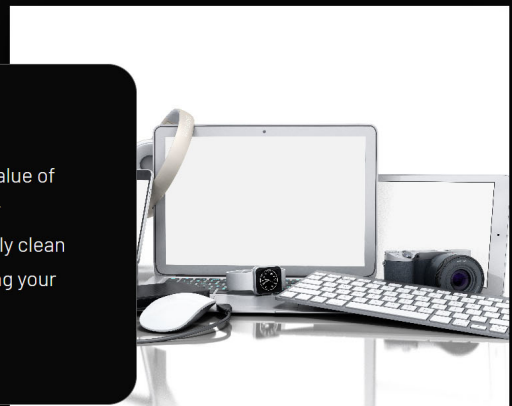

Carriers & OEMs

We provide a portfolio of services that enables the reclamation of mobile devices. Our transformation services for mobile devices include rigorously certified data erasure, automated testing, cosmetic refurbishment, and grading solutions.

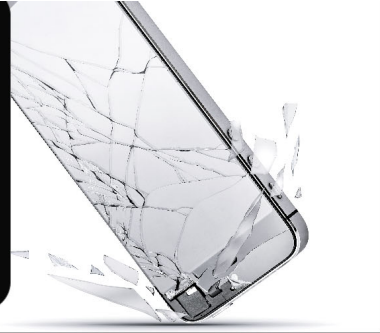

Consumer Electronics

Encore can improve the condition and optimize the residual value of your previously used devices. This cost effective minor repair solution will restore devices to fully functional and cosmetically clean refreshed condition – optimizing the resale value and satisfying your customer's needs.

Insurance Providers

With a combined 15 years and a deep understanding of working with TPAs (Third Party Administrators), Encore offers a full spectrum of device repair, restoration, and remanufacturing capabilities to maximize the value of your returned devices and source hard-to-find products to support advanced exchange/replacement programs.

Industrial

Our undivided focus on repairs has built our reputation on outstanding customer service and a 'whatever-it-takes' dedication to solving the toughest electronic repair challenges for our industrial customers.

Educational

We deliver a comprehensive suite of forward and reverse logistics solutions for pre-owned devices in the education sector, provide minor repairs designed to enhance a device's condition and grade, restoring it to fully functional use and increasing its life-cycle.

OUR CORE

**Extend Product Life-Cycles.
Minimize Waste.
Maximize Profitability.**

We believe transparency is key in establishing trust with our clients. We commit to being progressive, flexible, and innovative, proposing quality and cost-saving improvements while discovering the causes of complex failures. A strategic partnership with Encore empowers our customers to analyze and optimize monetization supporting a sustainable circular economy.
