RECORD RETRIEVAL & SUBPOENA SUPPORT SERVICES

(Texas and California)

In Texas & California, we prepare and serve subpoenas and obtain responsive documents. Our team comprises industry veterans, former paralegals, legal secretaries and experienced process-serving professionals. Together, we complete every matter using state-of-the-art workflow technology to provide the most efficient Service on Locations and fastest Records Retrieval turnaround times – all while keeping clients updated with any new case information we receive.

Our goal: to eliminate the headache of preparing and serving subpoenas and notices, advancing fees and following up with facilities. We work to reduce your out-of-pocket expenses and give you time to focus on more critical tasks.

Deposition Officer

We handle the task of tracking down the documents you request in your subpoena. We have experience in medical, employment, government and business records retrieval.

Subpoena Preparation

Our team of trained individuals bring more than 15 years of upper-level legal expertise, ensuring subpoenas are prepared to the highest degree of accuracy.

Service Of Process

We maintain a statewide team of Process Servers who go the extra mile to serve your documents expeditiously.

ELECTRONIC DEPOSITION SERVICES

eDepoze is the first deposition exhibit software that allows you to electronically prepare exhibits for deposition and then securely introduce them with an iPad or laptop.

The convenience of showing up without boxes of paper is liberating and eDepoze eliminates the paper process aggravation and cost. It's simple to organize and surprisingly easy to use.

Features

- 3-Step Processes
- Exhibit Annotation
- Presentation Mode
- On-the-Fly Document Organization
- Keyword Search
- Automatic Exhibit Log
- Personal Document Mark Up

With our additional modules, you can conduct all post-eDiscovery litigation events in one platform.

- Witness Prep
- Arbitration and Mediation
- Hearing and Trial

**Not only does eDepoze
save litigants significant
amounts of time and
money, it's also intuitive
and easy to use.**
