

Sustainability

Sustainability

Sonic Healthcare is committed to operating in a sustainable, ethical and responsible way across all facets of our operations — medical, financial, organisational, social and environmental. We have a variety of programs and policies that operate locally and globally, aimed at fostering a sustainable working environment for our staff, suppliers, customers and communities. This is consistent with several of our Foundation Principles — ‘Respect for our people’, ‘Company conscience’ and ‘Operational excellence’.

As a medically-led organisation, Sonic has an additional role to play in helping to improve the healthcare and lives of people in some of the world’s most disadvantaged areas- such as in the Goma region of the Democratic Republic of the Congo and Sudan. Sonic’s Catalyst Program helps communities develop locally based, self-sustaining pathology and radiology services by providing training, equipment and
