

AM-BA 200 Treatment Table

- 01
- 02

01 Overview

Cat		ts/am-ba-series/
-----	--	----------------------------------

02 Details

Top Section: Two Piece
Width: 27"
Length: 76"
Head Section: One Section
15" x 27". Raises 45 degrees. Lowers 90 degrees.

 Contoured Face/Nose Opening
Body Section: 61" x 27"
Lifting Capacity (lbs): 400 lbs.

Heavy duty steel tube Hi Lo control allows adjustment of the table height while keeping both hands on the patient and both feet on the floor. The control is designed to allow easy access from anywhere around the table without disrupting the treatment.

All AM-BA Series Treatment Tables share these features:

Minimum Height : 18"

Maximum Height : 37"

Heavy-duty vinyl with bacterial protection.

1.5" Firm density foam tops.

Radiused, seamless corners on upholstered components.

Top sections have welded steel support frames.

Pivoting joints house hardened steel shoulder bolts to ensure years of trouble-free operation.

4 Caster Base with 4" Total Lock ball bearing casters

110 volts, 60Hz motor (220 volts, 50 Hz available on special order).

Armedica Manufacturing

Since our founding in 1998, our tables have been virtually 'custom-made' in Greenwood, Arkansas . Although we utilize the latest manufacturing technology, our employees are "hands on" with the product at each stage of the process.
