We Help Users Make Data-Driven Decisions at the Speed of Business

We all know that the reporting solutions currently offered for Business Central can present challenges. Since many were initially built for non-cloud ERP platforms, there are obstacles with speed, ease-of-use, data management, and publisher support. As the only true cloud-based reporting solution built for Microsoft Dynamics 365 Business Central, Cosmos eliminates these technical bottlenecks. Our fast, intuitive cloud reporting platform allows you to manage data, design reports, and run unlimited simultaneous reporting queries in one easily accessible place.

Quick Installation

Powered by the Cosmos Data Engine, we quickly import and clean your business data into a single data model that is optimized for reporting in a day – or two depending on IT.

Turnkey Results

Once your Cosmos Portal is ready, users can start building reports and dashboards from day one in the report builder and gain access to 30 pre-built fully customizable reports for Business Central.

Seamless Microsoft Integration

All of our technology is built leveraging Microsoft Azure, which means your existing investment in the Microsoft technology stack will seamlessly integrate into the Cosmos technology platform.

Responsive Service

Our customers are the lifeblood of our business. The Cosmos team is always available to answer questions, provide support or additional training, or create custom reports based on your needs.

Fast User Adoption

Our user-friendly design interface and comprehensive training videos make it easy for non-technical users to add additional fields to your data model and create reports with ease.

Unified Cloud Platform

Business Central is built in the cloud – and your reporting software should be too. We fully leverage the Microsoft cloud for its speed, security, scalability, and cost savings.

Why Choose Cosmos for Business Central Reporting

"Our customers were looking for a Business Central reporting solution that was faster and easier to use. With Cosmos support (and their helpful training videos), everyone is happy!"

Grasiella Edwards, Operations Manager
Integrato

Cosmos Data Technologies was formed by industry veterans with a passion around all things reporting, analytics, and data management. With decades of experience in the channel, we strongly believe that everyone should be able to get the data they need, when they need it – without having to rely on technical resources. We're proud to provide a solution that makes these goals a reality for our customers.

Customer	Account	Account Type	1/1/2021	1/2/2021	1/3/2021	1/4/2021	1/5/2021	1/6/2021	1/7/2021	1/8/2021	1/9/2021	1/10/2021	1/11/2021	1/12/2021	1/13/2021	1/14/2021	1/15/2021	1/16/2021	1/17/2021	1/18/2021	1/19/2021	1/20/2021	1/21/2021	1/22/2021	1/23/2021	1/24/2021	1/25/2021	1/26/2021	1/27/2021	1/28/2021	1/29/2021	1/30/2021	1/31/2021	Total

Break Free of Reporting Limits in Business Central

Start easily creating reports and building ad hoc queries optimized for Business Central that run at lightning speed in minutes.

Make Report Creation Easier on Everyone

Remove the complexity of report design

Create and customize reports easily with the intuitive Cosmos Report Editor and 30 pre-built reports for Business Central.

Pull data no matter where it resides

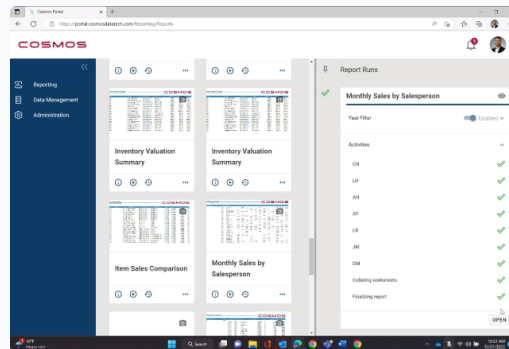

Utilize optimized data to quickly build reports without worrying about the underlying data structure or having to link multiple tables and fields.

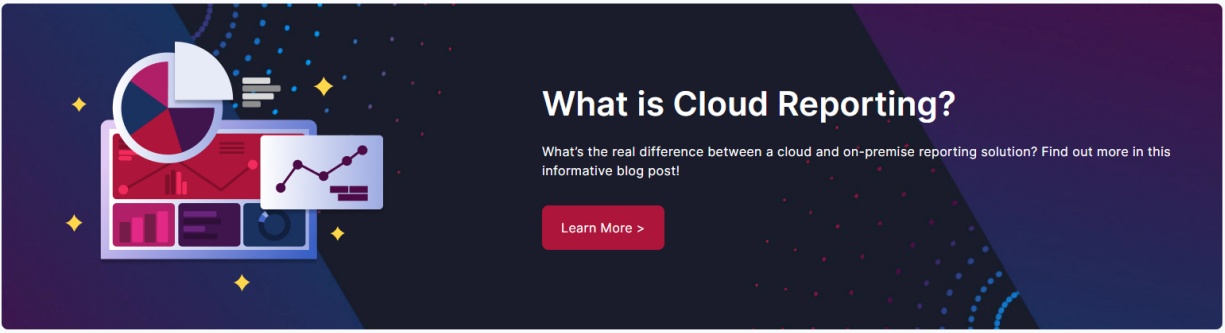

Easy to use report builder for everyone

Simplify report building with intuitive filters and formatting, point-and-click report design, and a familiar Excel online environment.

Share reports from anywhere

Publish and modify reports at the click of a button in the Cosmos Portal powered by Microsoft Azure.

What is Cloud Reporting?

What's the real difference between a cloud and on-premise reporting solution? Find out more in this informative blog post!

Build, Modify, and Share Accurate Reports From One Place

Cosmos was designed to eliminate the bottlenecks that so many organizations face when they need to create a report. With a familiar Excel interface and data that has already been optimized for reporting, Cosmos streamlines and simplifies the process so your users get the answers they need when and where they need them.

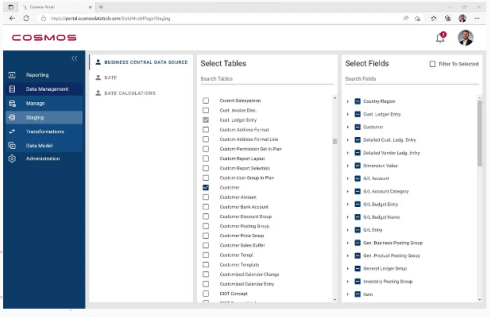

Run reports 48x faster than other Excel reporting solutions

Manage all financial and operational reports in a single unified platform

Empower users with self-service reporting tools they need for success

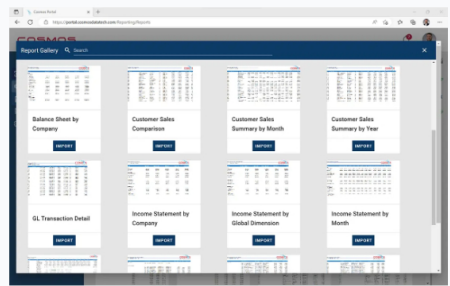

Eliminate the Technical Burden of Reporting

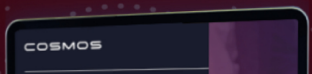

By providing all the benefits of a traditional data warehouse (without the expensive price tag), Cosmos users can quickly and easily move, cleanse, and organize data from Business Central into a single data model that is optimized for reporting. This data model can be extended and customized based on each organization's needs, including custom tables and fields.

Experience Turnkey Reports From Day One

Cosmos' intuitive cloud reporting platform allows users to easily create, customize, and share reports and dashboards without worrying about the underlying data structure or requiring technical expertise. With simplified data migration, effortless installation, and quick user adoption, users can create reports immediately with access to 30 pre-built, fully customizable Business Central reports directly out-of-the-box.

INSIGHT

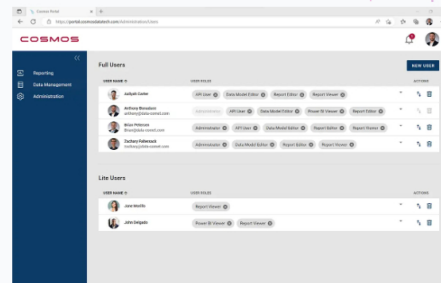

Run Unlimited Reports Simultaneously

It's not uncommon to set aside days to collect and run your entire finance, executive, sales, and operations report packages from Business Central. Not with Cosmos. Instead of restricting you to run one report at a time, you can now run unlimited reports simultaneously, without tying up Excel or other business applications.

Manage Your Reports From Anywhere

Running in the Microsoft Azure Cloud, you can easily access, organize, and update reports in the Cosmos Portal from anywhere on any device, at any time. Once you login to Cosmos, you can:

- Access existing reports and dashboards
- Create new reports and dashboards
- Manage user permissions and roles
- Edit your businesses data model

Ready to See More?

Opportunities to develop and grow your business are easier to find and act on when you have accurate data and actionable reports at your fingertips. Here is a sneak peek at the 30 essential pre-built reports included in Cosmos!
