Prodigy by Legacy

The first Youth Carbon Fiber Paddle on the Market! This paddle was engineered and designed to help players have success on the court. With the largest sweet spot on a Youth Paddle, the Prodigy helps you place your shots where you are aiming. With a longer handle than the competition you can work on developing a two handed backhand. With a 13mm core your resets and blocks will be much more efficient than thinner models. Having success on the court means more fun and more fun means you will enjoy growing in Pickleball.
