Autonomous Defense

Bringing autonomous superiority to the world's most important missions

A Highlander Partners company

High Point is a technology company developing autonomous defense and robotic systems for multi-mission capabilities.

High Point develops scalable, interoperable software and is a prime

High Point develops scalable, interoperable software and is a prime integrator for sensors and effectors for multi-domain operations. We are a leader in counter uncrewed systems (UxS), counter unmanned aerial systems (CUAS), force protection, rapid prototyping, long range ISR, advanced analytics, and human-machine teaming.

SYSTEMS

- 01 COUNTER UXS AND COUNTER UAS
- 02 FORCE & FACILITY PROTECTION
- 03 SOFTWARE & ANALYTICS
- 04 AUTONOMOUS SYSTEMS
- 05 ULTRA LONG RANGE AUTONOMOUS SYSTEMS

Counter UxS and Counter UAS

High Point is the global leader in counter unmanned systems (CUxS / CUAS) across air, land, and maritime domains. Our integrated, interoperable approach provides fixed, mobile, and distributed CUAS capabilities for civilian, military, and critical infrastructure clients.

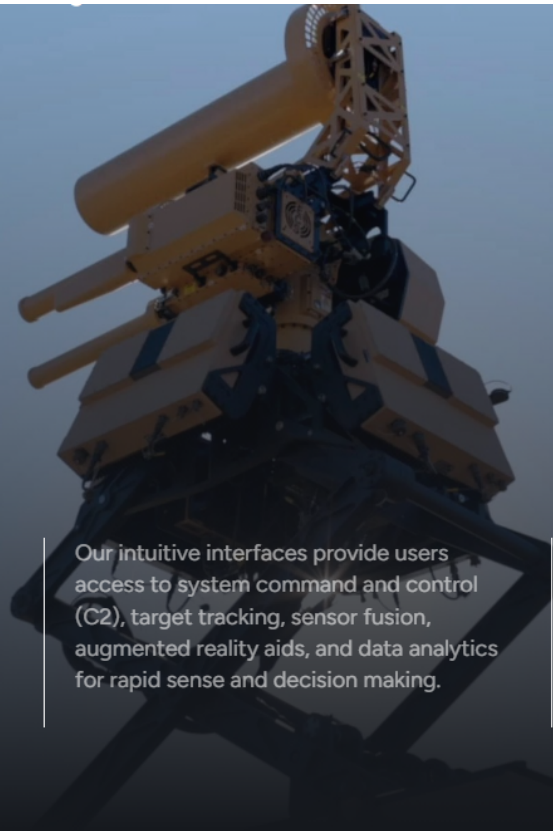
Autonomous Superiority At Your Fingertips

At Your Fingertips



High Point's family of systems is powered by our leading-edge, AI-enabled software.

Our intuitive interfaces provide users access to system command and control (C2), target tracking, sensor fusion, augmented reality aids, and data analytics for rapid sense and decision making.

High Point provides a suite of geospatial analytic tools for mission planning and real-time execution. These capabilities include DefenseOS®, an AI-enabled open-architecture C2 operating systems which integrates seamlessly into existing tools.

PARTNERS

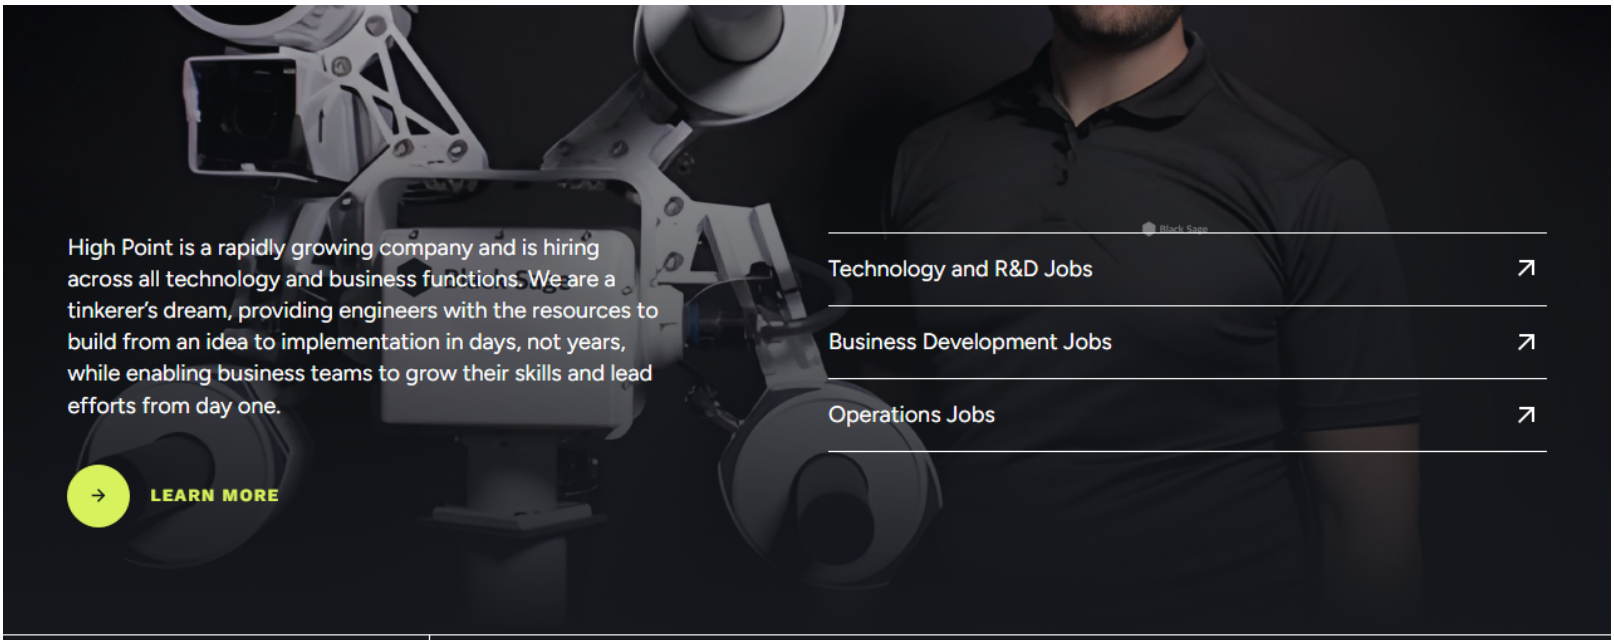
Black Sage
Black Sage



High Point is a rapidly growing company and is hiring across all technology and business functions. We are a tinkerer's dream, providing engineers with the resources to build from an idea to implementation in days, not years, while enabling business teams to grow their skills and lead efforts from day one.
