### Dear ITM Customer:

We are pleased to present you with our 2022 catalog. Here you will find tested and proven drilling and cutting products made by experts in the design, innovation, and manufacturing of power tool accessories. To be sure you are satisfied, we continuously test everything we sell against the latest construction materials, machines, and building processes. We invite you to visit our facility, and come test for yourself.

#### \*Performance and quality control.\*

In 1987, when we incorporated, International Tool Manufacturing stood for quality European made products. Today, almost 30% of our product volume is made in the USA, followed closely by Germany, France, England, Taiwan, and for some item categories, trusted and reputable factories in China. What has not changed is our focus on performance and quality.

#### \*Value Added.\*

Since 1987, our goal is to be your best singular source for industrial drilling products that satisfy all professional construction requirements. ITM offers many value added services including flexible credit terms, payment options, same-day shipping, technical training & support, private branding, application specific product adaptations, and a fantastic customer service experience.

#### \*Anything that makes a hole.\*

We employ both a process-based quality management system, and a rugged ERP system to stock, manage, and ship more than 4,000 items with a 99% same-day fill rate.
