Amazing Protein With a Unique Flavor!

If you're looking for a tasty protein powder with a unique flavor, look no further! The Matcha Soft Serve taste is very smooth -- not bitter but also not too sweet either, which is the way matcha is supposed to be. Kudos to MOMO for getting this flavor profile down. I already tried to mix this with both water and milk...tastes great either way!

Amazing with WATER

There is very little protein powders that I enjoy whole heartedly with water alone. This one does it SOO well! With water it has a tangy flavor that is just enjoyable. It doesn't leave that protein flavor lingering in your mouth either. This is also one of those flavors that just isn't out there or that you do not see very often. They really did wonders with this product and I cannot wait to finish all of my protein powder to get another one.

Super Impressed!

Honest review here -- I've had many types of protein powder over the years, including ON, Ghost, and Muscle Milk, and this is by far the one that really stands out.

The taste is impressive. It's the perfect level of sweetness and tastes just like Yakult, which is hard to pull off since it's such a specific flavor. I also

Gains meets nostalgia

I never would have imagined a flav drink and flavor I grew up with as a kid up in a protein powder, but here we are! It does taste like yakult and it is DELICIOUS! Great with water and even better with oat milk if that counts!) It's the perfect sweetness and has a nice touch of matcha in each sip, just like the yakult drinks I remember after taste or feeling sick afterward. The ingredients are high quality and a single scoop goes a long way. The label is awesome as well, with a thoughtful design. Love everything about this product, can't wait to buy more!

appreciate that it goes down smoothly and leaves no "protein after taste."

As an added bonus, the design and aesthetics is great. I'll definitely try the matcha flavor after I finish this one!
