We help vets help pets

Trained remote support for veterinary teams of all sizes.

[Learn More](#)

Need a hand? Patch has you covered.

Whether your practice is experiencing a boom, or a staffing shortage has you howling for help, Patch is your veterinary reinforcement. We connect you with a remote support team made up of fully-trained Doctors of Veterinary Medicine.

- **No need for additional on-site hires**
- **Less pressure & fewer tasks on existing teams**
- **Reduce the pressures that take time and resources away from animal care**
- **Build a support team that is customized to your hospital's unique needs**

Patch covers the busywork so you can get back to doing what you do best—improving care for animals.

Front Desk & Scheduling

New Patient Registrations

Scheduling Appointments

“Live” Check-Ins

After Hours Support

We ensure your front desk is focused on customers, not on computers and phone calls.

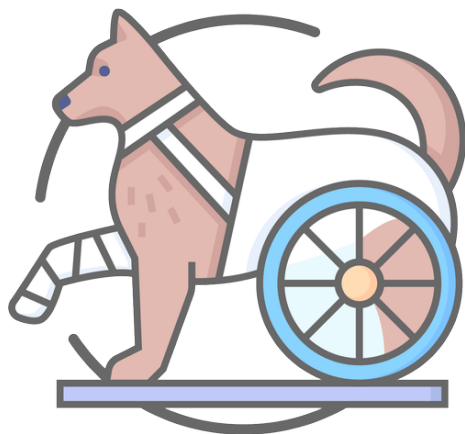

Administrative and Note-Taking

Patient Record Management and Updates

Rx Refill Requests

Text and Email Support

All from medically trained staff managing back office at a fraction of the cost.

Follow-Ups and Care

Benign Responses

Patient Notes

Patient Follow-Ups

(All at the approval and discretion of your doctors)

You'll work with DVMs focused on clinical care with minimal admin burden.
