

<https://www.geaerospace.com/commercial/services/true-choice/transitions>

The screenshot displays the GE Aerospace website's 'TrueChoice Transitions' page. The main visual is a large commercial airplane on a tarmac during sunset. The text 'TrueChoice Transitions' is prominently displayed in the lower-left corner of the image area. The website's navigation menu includes 'Commercial', 'Defense', 'Systems', 'News', 'Sustainability', 'Company', and 'Investors'. A search icon is visible in the top right. A blue accessibility icon is located in the bottom left corner of the page content. The browser's address bar shows the URL 'https://www.geaerospace.com/commercial/services/true-choice/transitions'. The system tray at the bottom right indicates the time is 11:57 AM on 7/8/2024.

# Transitions offers you a broad range of options across the entire engine lifecycle

We understand that not all operators fly with newer engines and that many have fleets with a range of ages or only operate older assets. We are committed to supporting your engines from entry into service all the way to the end of operational life.

We are uniquely positioned to help you realize the maximum value – along with the desired performance – from your engines, and to facilitate transitions as your fleet evolves.

### Looking around corners

Whether you're looking for a single shop visit, alternatives to doing a shop visit, or a more comprehensive offering, with GE Aerospace's TrueChoice Transitions offerings, you're assured highly tailored worksopes and maintenance actions with material options specifically designed for shorter-term ownership horizons – resulting in lower total cost of ownership/operations.

### TrueChoice Transitions offerings include

- Time & Material (T&M) overhauls or rate per flight hour programs
- Custom worksopes – shorter builds, maximum used serviceable material levels, life-limited parts buyback
- Traditional and Green Time engine leases
- Engine and module exchanges
- Sale/lease back
- Consignment and part-out services

- Engine and module exchanges
- Sale/lease back
- Consignment and part-out services
- Lessor products specifically designed to accommodate a change in owner or operator
- Specialized services to economically meet lease return condition requirements
