The screenshot shows the CSI website's CCCA certification page. The top navigation bar includes the CSI logo, a search bar, and links for Donate, FAQ, Join, Bookstore, ShopCSI, and LOGIN. A secondary navigation bar contains Home, Community, Standards, Certification, Learning, News, and About CSI. The main content area is titled 'CCCA' and features an overview, exam requirements, and exam resources. **CCCA Overview**

CSI's Certified Construction Contract Administrator (CCCA) certification demonstrates you have a high level of knowledge for developing, administering and enforcing construction documentation. Passing the CCCA<sup>SM</sup> exam means you've proven your skill in:

- Quality assurance and quality control
- Bidding and negotiating procedures
- Construction observation and inspection
- Division 01, General and Supplemental Conditions, agreements, and all other documents related to the project
- Enforcement and liability

...and you may use the designation "CCCA" after your name, on your LinkedIn, business cards and resume — plus, proudly share your CCCA<sup>TM</sup> digital badge.

**Exam Requirements:**

- If you are not a CDT: a minimum of five (5) years of industry experience is required, plus two (2) letters from industry references to verify your years of experience. In order for your application to be processed, you must submit the two (2) reference letters in .doc or .pdf format to [mocchetti@csinet.org](mailto:mocchetti@csinet.org).
- If you are already a CDT: a minimum of two (2) years of industry experience required. No references or letters are required.
