NewLife[™] Phosphate | The World's Best Rechargeable Battery

by K2 Energy[®] a US battery company | Henderson, NV.

3.2V 2.6Ah Lithium Phosphate Power Cell • Use only recommended K2C3V3 or K2C3V1 charger

Recommended Operating Conditions

- Continuous Discharge | $\leq 10.0A$
- Pulse Discharge 30 Seconds | 26A
- Charge Current | $\leq 2.6A$
- Charge Voltage Cutoff | 3.65V
- Discharge Voltage Cutoff | 2.50V
- Highest Operating Temperature | 60°C
- Lowest Operating Temperature | -20°C

Maximum Operating Conditions

Operating under these conditions could significantly reduce battery life

- Max Continuous Discharge | 42A
- Max Pulse Discharge ≤ 30 Seconds | 50A
- Max Short Pulse Discharge ≤ 5 Seconds | 150A
- Max Charge Current | 5A
- Max Charge Voltage Cutoff | 4.1V
- Max Discharge Voltage Cutoff | 2.0V

Performance may vary depending on application. All specifications and operation conditions are subject to change without notice. Data is provided for evaluation purposes only.
No guarantee is intended or implied by this data.

CAUTION: Risk of fire, explosion or burn. Do Not short circuit, crush, incinerate, heat above 100°C or disassemble. Please recycle. Use only recommended charger.
