

Quick-Start Guide to Family Prepping
Your One Stop Solution for Survival in Extreme
Circumstances!

**IS YOUR FAMILY
REALLY PREPARED?**

Excellent!

The fact that you are reading this manual indicates you have taken the initial step in preparing your family to handle any and all disasters that could come your way.

Step #1

Research & Discovery

(What you are doing at this very moment)

This quick-start guide will assist you with educating yourself, as well as the members of your family, about what steps and actions everyone should take in the event one or all are faced with a natural or manmade disaster.

Step #2

Hunting & Gathering

Proper preparation for surviving a disaster involves assembling the right items and materials. You may or may not have some of the equipment mentioned in this guide; however once you are finished perusing this pamphlet you will have a better idea about what is essential and vital for inclusion in your personal protective kits.

Peruse debate and familiarize yourself with the literature contained in this manual. In the event of a catastrophe, large or small, you will be able to respond accordingly and calmly to avoid tragic consequences.

The information contained in this instruction manual is specifically intended to assist the uneducated individual with taking the initial primary steps to assemble disaster preparedness plans and kits for the explicit purpose of weathering otherwise unsavory event(s). It is by no means the absolute, unequivocal and complete compilation of catastrophic occurrences or recommended actions to be taken. The information provided is at your disposal to use as you see fit. www.unknown.com makes no guarantees or warranties, nor does it accept any responsibility or liability, with regards to personal injury, harm, danger, or property loss as a direct result from any actions the reader takes when applying their knowledge and understanding of the materials discussed within these pages.
