BUSINESS NEEDS + IT SOLUTIONS

APPLICATION SERVICES

APPLICATION DEVELOPMENT
New development technologies, cloud-oriented business models and connected devices create opportunities for Blue Chip architects to drive home modernization and ingenuity to clients' businesses.

COLLABORATION SOLUTIONS
Blue Chip's capabilities within our Collaboration Solutions help customers take employee productivity to the next level.

DATA PLATFORM & ANALYTICS
Blue Chip, with its proven track record, can implement the Microsoft Data Platform and Analytics Solutions to help clients improve business collaboration, uncover new connections and relations, and discover new insights across data sets.

INFRASTRUCTURE SERVICES

CLOUD & DATACENTER
Blue Chip takes clients into the future with the Cloud Datacenter Solution.

DEVICES & DEPLOYMENT
Blue Chip wants our clients to make the most of their Devices and Deployment Solutions. Equipped with high-caliber consultants, we can customize a solution that is unique to those organizations to create an agile way that prepares them for what's next.

IDENTITY & ACCESS
Blue Chip's world-class Solution Architects build custom solutions to help clients stay competitive in the ever-evolving Enterprise Identity Management market.

MANAGEMENT & VIRTUALIZATION
The alignment of Microsoft Management and Virtualization Solutions has proved to be beneficial time and time again for Blue Chip clients.

UNIFIED COMMUNICATIONS
Blue Chip's Unified Communication Solution gives customers the ability to securely communicate anytime, anyplace, and with anyone.
