

Services

Integra is dedicated to exceptional customer service in support of one of our guiding principles, "The Customer Comes First." Our first-class team of account management provides full set-up and end-user training when you are initially installed with Integra products, and we continue that comprehensive support as your business grows and evolves.

Cloud Fax Solutions

Integra Cloud Fax (ICF) is a complete solution that virtualizes faxing, and provides disaster recovery and fail-over for peak demand times or natural disasters. Connect facilities to your ICF Network with the A2E device.

Consulting Services

Though account management provides full training during initial install, we realize our customers' businesses are constantly evolving and changing. Our Consulting Services team can assist your pharmacy in handling this growth.

Integra, Inc.
317 Commercial Ave
