

Introducing Watlow SELECT™ for Distributors

As key partners, Watlow Distributors have been sharing ways we can improve the Watlow experience. At the core of the message was the desire for ease of use, access to technical information, visual configuration with accurate prices and lead times and industry beating delivery. The markets we serve and the world around us are changing to a more immediate and on-line experience and Watlow is dedicated to being at the forefront with our Distribution partners.

If you are not a Watlow Distributor, you can realize the full benefit of the SELECT program by contacting an Authorized Watlow Distributor.
