### Description

This GHOST CONTROLS TDS2XP Solar Automatic Gate Opener Kit for dual gates is the ultimate *solar* solution for do-it-yourself installation on tubular or rural style vehicle entry gates. The kit comes complete with all of the parts you need to install this kit, except for a battery and battery box. A Premium 10-Watt Monocrystalline Solar Panel (non-diode) with 12 ft. of wire, mounting arm, brackets, and fasteners are included for solar capability right out of the box.

### Features

- UL325 6th Edition? Standard System Certified
- Requires an external automotive style or marine battery and battery box (not included) or can add the [ABBT Battery Box Kit](#)
- Includes two 3-button Standard Remote Controls (AXS1)
- Includes one 10-Watt Premium Monocrystalline Solar Panel with 12 ft. of cable, mounting arm, brackets, and fasteners
- Does not include transformer
- Can be installed on any commercially available tubular gate up to 20 feet in length per leaf of gate for a total of a 40 foot dual gate system
- Requires low voltage wire for AC transformer (included) or solar panel (optional) installation
- Gate attachment hardware is optimized to aid in installation on tubular gates
- Can be installed on decorative entry gates up to 300lbs or 20 feet in length
