

KiNVO by Kininvolved

Manage attendance and family communications in one app.

KiNVO is a powerful, user-friendly web and mobile app that equips educators, parents, and students with data that highlights attendance patterns, all in service of motivating change. The software builds bridges for parents who are hard to reach due to irregular schedules, work commitments, or language barriers.

With KiNVO, attendance rates jump, chronic absenteeism drops, and family engagement skyrockets.
