Worst app ever. I completed a very long server from ad scened media and its been over a week and I still didn't revive my 450 carats. I dropped 2 complaints from mail and still didn't get any response. Don't download this app it's full fraud.

Sorry for the issues. Unfortunately, we don't have control over their services (we don't manage the offers, other companies do), but your issue has been reported from our side. We're constantly working with them to make sure you don't have these issues. Thanks for the feedback and we'll try to get them to fix it asap! Hope you understand!

The deals and all are fine it's just for whatever reason when I turn my phone to the side slightly as if to put it up to my ear to hear something the screen locks me out. It only started doing this recently but I can't listen to things like voicemails making it far more trouble than it's worth.
