Slidejoy turns your smartphone lockscreen to a beautiful and rewarding one. This app displays interesting stories and advertisements in users lockscreen, for which users gets rewarded.

## How to earn money

- > Lockscreen ads
- > Offerwalls ( Supersonic, Nativex, Fyber, Trial Pay, Adscend Media )
- > Survey offerwalls ( Cint, Peanut labs)

You can unlock slidejoy by swiping towards right or left, if you swipe to right it unlocks as usual, if you swipe towards left it opens a window which displays sponsors website.

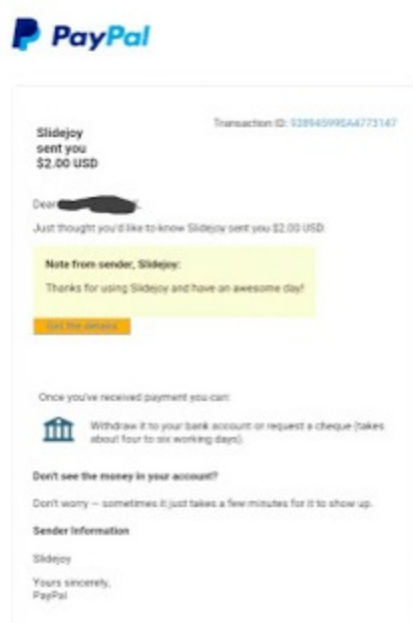

Slidejoy awards users with points called 'Carats'. You earn carats for your various activities in the app and you can exchange these points to cash and gift cards. The conversion rate is 1000 carats = \$1.

## Payments

The minimum payout is \$0.462 (Recharge) and \$2 (PayPal & Bitcoin) . I got my first payment with in 30 minutes of request. So they are paying users on time as promised. You can see many positive reviews on play store regarding their timely payments.

## Payment proof:

## Update:

New payment methods added, Now you can recharge your mobile number or Dth connection and you can also redeem for Facebook game card, 1-800-flowers & Hotels.com gift cards. Minimum amount required to recharge is 462 carats (\$0.462). You can also use PayPal for payout.

Note: The carats you earned will become redeemable on 18th of next month.

## Conclusion:

You can expect around \$2 per month with this app by unlocking alone and you can increase earning by doing offer walls and surveys. Your earning depends upon how much you engaged with this app. We recommend these app for unlimited Internet users. Normal users can disable slidejoy whenever they are not connected to Internet because you will not earn if you are not connected.
