Master Collection® Upgrade\*:

**ADD TO CART**

Regulator is our (outside the waist band) cross draw holster. It is designed with the same belt loop concept as the Marshal holster just in the draw direction, for a comfortable fit in the position. There is a loop that would point towards the back of your body (in the cross draw position) and a loop that would point forward behind the barrel of the gun (between the gun and your body). This leather holster will accommodate a **1-3/4" belt**.

*Cross draw holsters are great for a sitting draw, perfect for in the car carry. Please note that you are legally allowed to carry in your car.*

**Please note that "Right Hand" means it is made to be worn on the left side of your body. "Left Hand" means it will be made to be worn on the right side of your body.**

The Regulator cross draw holster is made to fit what ever model you select. We have a list of firearms that it can be made for. Please pull down menu below to see our list of offered models. If you do not see your handgun model listed below, please contact us! You can email us or give us a call and there is no charge.

even custom make a holster for you. We t  
this before and we are sure we will do it a  
welcome the challenge and the opportunit  
your holster. Your satisfaction is our numb  
goal.
