**Product description**

Style: **800 CFM**

**Easy to Disassemble for Cleaning**

This BV range hood is a high airflow ducted unit with lights and stainless steel baffle filters. The entire range hood is designed with easy removal and cleaning of parts, without specialized tools required.

**Patented "SLANTED" Design**

Slanted housing provides effective, quiet airflow and provides full coverage of the entire cooking surface the fan sits over.

**800CFM High Power and 3.6 Sones Low Noise**

The range hood provides up to 800 CFM while only outputting 3.6 sones at max fan speed.

- Exact Dimensions (L-W-H): 29-3/4" x 22-1/20" x 7-1/4" to 8-1/20"
- Materials: Brushed Stainless Steel / Sheet Metal
- Power Rating: 120V/60Hz (cUL and ETL Certified)
- Total Input Power: 174W
- Motor Input Power: 170W L
- Levels of Speed Control: 3-speed electronic button control
- Number of Motors: 2
- Fan Type: Aluminum Motor Fan
- Filtration Type: Stainless steel baffle filters
- Illumination: 2x 2W LED lights
- Vent Shutter Opening Size: 6-1/4 "

## Top customer reviews

Ben Schrock

★★★★★ Love the Hood!!

May 7, 2017

Style: 800 CFM | **Verified Purchase**

The hood came without any dents or dings and looks great. It was really easy to install. I installed underneath a cabinet with the provided hardware. It also comes with hardware to attach it to the wall behind the unit. I cut through the cabinet and outside wall.

FYI. This unit does not have a recirculate option and you need to vent it outside.

It pulls a lot of air. I don't have any return air specifically for this unit but it still works great. I am able to stir fry at high temps or deep fry without smoking out the house!

★★★★★ **Quick response**

May 22, 2017

Style: 800 CFM | **Verified Purchase**

Within minutes of complaining about the lights, I received this reply from the manufacturer: "We actually have brighter lights for you to replace. The new light that we are sending you is twice bright as the existing one."

 Steven

★★★★☆ **Powerful range**

July 6, 2017

Style: 800 CFM | **Verified Purchase**

I've only owned this hood range for a couple weeks now, but it looks very sleek and industrial if that's what you want. The grates look easy to clean and lights are really bright. Even on the lowest fan setting, it can hold a piece of paper in front of the grates.

I wonder why they only supplied 2 rubber rings to attach to the bottom and not 4 for the top too. It made it uneven so I opted out of using them. The sticker that comes off the front left some adhesive, so I had to use some Goo Gone to remove it.

This is definitely a two man installation, so if you're installing it yourself, plan for having someone help.

 Vincent

★☆☆☆☆ **I would highly recommend against buying from them**

July 21, 2017

Style: 800 CFM | **Verified Purchase**

Product was delivered on time. However, upon opening, we discovered that one of the light bulbs was not turning on. The defective LED is on the right side, light is barely visible. We tried to loosen it and tighten it again, then it turned on. So we installed the unit at our new house and moved on to other projects. When we finally moved in 3 weeks later, the same bulb was out again. Tried fixing it, didn't work. Contacted the seller to get a replacement bulb on July 18th. Nobody bothered responding to us. I would highly recommend against buying from them. Don't expect any warranty if something goes wrong with the product.

 Ben

★★★★☆ **Fine for a bit but probably won't last and has terrible LED's**

December 2, 2017

Style: 800 CFM | **Verified Purchase**

This hood is good, not great. It is quiet and powerful but it's lights are the worst that LED's can be. Dim and very harsh white. Also when the hood arrived it's fan blades were bent and I had to straighten them before it would run without rubbing. Dealing with customer service and the manual it came with was pretty rough. The

 BoomerDrive

★★★★★ **Buy It. You'll be Pleased!**

Well packaged. Easy to install. Operates beautifully. Looks nice. No sharp edges to hit your head or (tall). Product and service are as advertised.

**Search customer reviews**

branded "BV" but "Live Tec". If you have the money for a name brand model or want a hood that will last I would not suggest this one. If you're broke and need a decent hood that will likely last a few years before becoming garbage due to the lack of parts or customer service and the lighting in your kitchen is already good then this will fit the bill.

 Lonnie

★★★★★ **Quiet and efficient**

September 28, 2017

Style: 800 CFM | [Verified Purchase](#)

We are very pleased with this range hood. Its easy to use and does a fantastic job of moving smoke and odors to the outside. Even when we run it on high, it doesn't interfere with conversations..

I'm adding a picture in response to a question about covering this with a custom hood cover.

 The Superman

★★★★☆ **Great unit, but weak lights**

November 8, 2017

Style: 800 CFM | [Verified Purchase](#)

Just installed the BV yesterday. Packaging was awesome. The box was so heavy that I originally thought installation was going to be a pain. But after taking it out of the box we realized much of that weight was the packaging. The unit itself is very manageable

As for installation, the instructions were worthless. Don't even bother reading them..... they'll just confuse you. Just look at where the exhaust hole needs to be and where the plug is going in and create holes accordingly. Then just screw it in or bolt it or whatever. It's that simple

One suggestion. I saw in one review that somebody attached a straight extension for the exhaust by screwing it in after drilling holes in the extension. We did that and it was very helpful.

The fans are very quiet and the unit appears to be very well made. The only reason I am giving it 4 stars is the light seems to be weak and at a light spectrum I don't like

 Amazon Customer

★☆☆☆☆ **RUSTED FILTERS!!!!**

January 11, 2018

Style: 800 CFM | [Verified Purchase](#)

The filters started to rust. My wife and I are very disappointed with the product as they are not cheap to begin with plus the labor that we paid to install the hood. Now we are stuck with these rusted filters.
