- 1000 TPH shiploader
- Barge unloading system
- 90,000 square foot warehouse
- Truck and rail scales
- All associated assets to handle any variety of terminal services
- An additional 90,000 sq ft warehouse was completed in 2017

Services Offered in Savannah, GA-

- Over 350,000 square feet of warehouse storage capacity
- Valve bagging and screening capabilities
- A dehumidified process control system
- Truck and rail scales
- Transload containers to truck and rail
- Ability to receive bulk materials via rail, truck or vessel 24 hours a day
- Ability to receive 300 tons per hour via rail, truck or vessel
- 100 tons per hour bulk load-out

Offering dual rail and river access, SeaGate Terminals is specifically designed to store your bulk and bagged materials.

With warehouses ideally located on the Savannah River, and accessible to 7,000 feet of CSX and NS direct rail service, SeaGate Terminals is your preferred strategic partner, offering convenience and flexibility with added cost-effectiveness. Whether your product comes in or goes out through our facilities or The Port of Savannah, we can help.

As an added benefit, SeaGate Terminals provides bagging and high-quality screening according to each client's individual specifications.
