

**BIG**

Beauty Industry Group

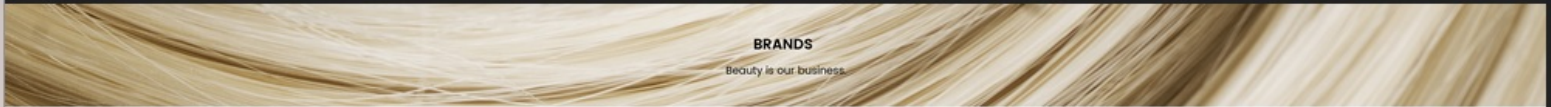

BIG owns and operates businesses within the professional beauty industry, with its products sold and distributed in all of North America, Australia, parts of Europe and Latin America.

BIG is looking to acquire and grow additional brands within the beauty industry by partnering with their existing teams to enhance their expertise and skill sets with financial and human capital, and then - unlike most investment companies - hold those companies for decades.

Send a message to growth@beautyindustrygroup.com for more details or [click here](#) to read more about BIG's acquisition philosophy.

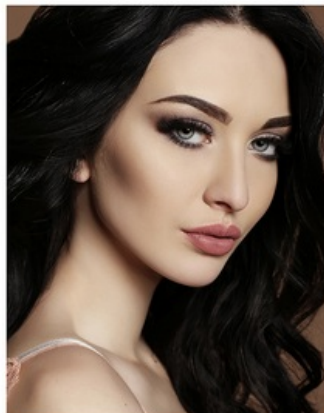

BIG's Brands and Products enable individuals to feel beautiful and valued while at the same time reminding us that true beauty is shown from the inside out.
