

There is A LOT out there on plane travel with kids!! however, had a hard time finding info about traveling with babies! Specifically around ages 6 months to 1 year old. Since we are avid travelers with our Georgia we figured we pass a long some things we've learned! Mind you we aren't experts by any means but hopefully our experiences can help you in some way! Our most recent trip was to Hawaii and our flight was 6 hours long! So lets get to it! Bon Voyage!
