

We love the minimal shape of this backpack and the matte faux-leather + brushed metal hardware give it the perfect masculine yet famine look! Inside features a pocket specifically designed for a laptop or iPad and then smaller pockets for holding all your necessities like diapers + wipes etc. It's the perfect bag to take on any adventure... the hard part is just deciding between the black or the brown! The Pack would make for the perfect holiday gift for him or for her! [Shop the Pack HERE!](#)
