Specialty Products

CORE produces a number of specialty products. PASSPORT 8-24-6 is a "state of the art" complete plant food containing multiple phosphate sources, an enhanced micronutrient package from EDTA. PASSPORT 8-24-6 can be used as a starter or sprayed over the top of rows to promote root development and early seedling growth. PASSPORT 8-24-6 can supply nutrients crucial to young plants under cool, wet spring conditions. Continue with multiple applications throughout the growing season to provide a continuous supply of nutrients at or near the time they are needed most.

CORE BEAN BOOSTER

CORE BEAN BOOSTER is specifically formulated for foliar application on all bean and most other crops. It supplies essential nutrients in an available form at or near the time th...
