

# WHAT WE DO

## Consulting

### CURRENT SERVICES

## BUSINESSES

- Assisting businesses in accepting cryptocurrencies as payment for services / products and integrating these transactions into their traditional books and records.
- Blockchain Back-Office (BBO) accounting services for blockchain based businesses including cryptocurrency bill pay and maintaining books on cryptocurrency accounting software.
- Outsourced Blockchain CFO services for blockchain based businesses. We are your complete accounting department from clerk to CFO.
- Business tax planning related to cryptocurrencies.
- Proof of Concept (POC) Development to demonstrate the feasibility of a blockchain project in various industries.
- Assist businesses with migrating their supply / distribution chains onto a permissioned blockchain. We will work closely with businesses to manage their nodes, establish peers, configure network channels and policies, and instantiating chaincodes (smart contracts on permissioned blockchains).

## INDIVIDUALS

- Personal Portfolio Tracking (PPT) through [www.CoinTracking.info](http://www.CoinTracking.info), including preparing “audit

ready” backup.

- Individual tax planning related to cryptocurrencies.
- Maximizing On-Chain Value™ through assisting in claiming hard forked coins.

## **FUTURE SERVICES**

- Maximizing On-Chain Value™ by assisting in “staking” coins for proof of stake protocols; assist in various other strategies to earn a return on cryptocurrencies that are held for long term investment.
- “Certification” process to tokenize assets.
- Tokenization of artwork with fractional ownership.
- Assist in creating blockchain “personal” use cases such as migrating an individual’s professional certifications, criminal background, and educational accomplishments to an immutable blockchain. These assets will be authenticated through a “certification” process prior to being on-boarded onto the blockchain.
- Cyber Security (our strategic partners secure all devices and environment against security threats / best business practices related to cryptocurrencies).
- Best practices for private key storage.

- ICO Advisory Services.
