## Bundle Description

Unlock the Learning is a series of highly engaging and challenging games that are truly meant for any subject in any grade level. To play, transform your white board into a giant game board and challenge your students fun and rigorous problems to review the content of ANY subject! This game is easily differentiated so you can personalize it to fit the needs of your students.

We've begun adding digital versions of each game, and will update throughout the 2018-2019 school year.

Currently digital: [Unlock the School Year](#)  
Coming soon: [Unlock the Pumpkin Patch](#) and [Unlock the Haunted House](#)

### THIS GROWING BUNDLE INCLUDES:

[Unlock the North Pole](#)  
[Unlock the Love](#)  
[Unlock the Rainbow](#)  
[Unlock Spring](#)  
[Unlock Summer](#)  
[Unlock The School Year](#)  
[Unlock the Haunted House](#)  
[Unlock the Pumpkin Patch](#)  
[Unlock the New Year](#)

\*All future games in the Unlock the Learning series  
(Currently working on new games for fall and winter)

### EACH GAME INCLUDES:

- \*14 pre-made math challenges for 2nd and 3rd grades  
(Unlock the School Year and Unlock the Haunted House also include challenges for 4th grade)
- \*7 blank challenges you can personalize for any subject, in any grade level
- \*Game board set-up pieces
- \*Pictures from our classrooms to help you implement it in yours
- \*Directions and extra resources to help you set the stage
- \*Game launch letters to excite students
- \*\*"Unlock \_\_\_\_" banners
- \*Treat bag toppers
- \*Tips and tricks from 2 teachers who have used this in our classrooms

### ABOUT THE GAME:

#### WHAT IS UNLOCK?

Our Unlock games are unique, challenge-based games that give students the opportunity to review academic skills while practicing teamwork and perseverance.

#### HOW TO PLAY:

There is no "right way" to play this game. You can send students through the challenges individually or in teams, whatever works best for your class. You can complete the challenges in one day or stretch them out over a few days.

Some students may not finish all challenges, and that's okay! The amount of effort and learning that takes place during the game is so intense that they don't need to finish everything to benefit.

#### HOW LONG DOES IT TAKE TO PLAY?

The length of the game is something you can alter to fit your schedule. Traditionally, the game takes about 2 class periods, but teachers have played it in many different ways as well.

#### WHAT DO THE STUDENTS DO?

The Unlock game board has a start and finish. Each large game piece on the game board represents a "challenge" that students must complete in order to move their individual game piece forward. The goal is for students to successfully get their game piece to the end, where they "Unlock" the game! If you choose to use our optional detours, they are "mini stops" that give students a quick break between challenges.

#### WHAT DOES THE TEACHER DO?

During the game, encourage students to problem solve, persevere, and help each other when they come to a problem that is difficult. Coach individual students through difficult challenges. Reteach skills as needed.

After the game, have a class discussion about how the game went and celebrate successes together!

Our games have been successfully implemented in kindergarten through 8th grade classrooms, so don't be deterred by the pre-made 2nd and 3rd grade challenges. This is truly a game for any grade level!
