### Easy to use

November 23, 2018

**Verified Purchase**

I've purchased two of these one for my father's room and one for the family room. The speakers are great. Bluetooth works well. And my elderly father can see the knobs and buttons well since they are white, not the modern all black designs! We also love the retro look.

### Almost Perfect....but

December 2, 2018

**Verified Purchase**

Overall I'm very satisfied with the radio as it sounds as I expected to and really has the vintage look and feel. The only disappointment was that when I plugged in my Alexa Dot using the aux input on the back of the radio all the lights that illuminate the radio turned off and you can't even tell that the radio is on. I tried using the Bluetooth connection method and the radio lights turn off also. It's not a big deal but the radio looks great when the dial is lit up. I'm sure there is probably a way to have the lights stay on.
