

InterviewProf™ By BeMo

Introducing InterviewProf™: A brand new form of software as a service (SaaS) and training program for selection & training of university and job applicants.

InterviewProf™ is designed to help you prepare for any form of admissions and job screening test to get you accepted to your dream educational program or to land that perfect job.

The platform can detect professional and personal characteristics required by most educational programs and employment types.

The best part is that it allows you to practice your skills from anywhere around the world with access to the Internet.
