SIMS, Inc. Pricing Effective September 16, 2018

Software cost is based on the account capacity with all features standard. All software prices include a 90 day software warranty and backed by a 90 day money back guarantee. As pricing for the SIMS II and SIMS III is based on account capacity, you only need to purchase the amount you currently require. This will reduce your initial investment and allow your system to grow as your company grows.
