HOTELS & RESTAURANTS

ARRIVE Phoenix

ARRIVE Phoenix will incorporate two landmark mid-century modern office buildings that will be remodeled to include 79 rooms and a rooftop cocktail lounge. The re-envisioned complex will center around a new-construction restaurant and bar opening up to a lush pool area. The property will also include a popsicle shop, retail space and meeting space. Located just one block west of the intersection of Camelback and Central, voted the "Hottest Intersection in Phoenix" by the Urban Land Institute in 2017, ARRIVE Phoenix will become a local landmark in this fast-emerging neighborhood on the city's north side. The property will partner with the Newton development next door, which boasts a large event space and the city's renowned Changing Hands bookstore.
