## KOREAN BEAUTY – CURATED, TESTED & APPROVED

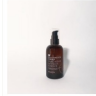

Peach & Lily brings you the highest quality Korean beauty products and the latest K-beauty trends and innovations. Our founder and chief curator, Alice Yoon, travels to Korea monthly to walk the streets, talk to locals, and meet with top R&D labs to discuss the newest multi-step Korean skin care products and scientific developments in the works. An extremely rigorous curation process means that only 5% of the products we test make it onto our site. If we've curated a product, you can trust that we believe in it and that it works. The Korean beauty and Korean skincare industry is celebrated around the world for fast-paced innovation, unique, natural ingredients, and, of course, effective results.
