

Bounce Bac Bolus™ is a ready to use nutritional supplement formulated for calves. When given as directed Bounce Bac Bolus Capsules provides a stabilized source of direct fed microbials, select vitamins and prebiotic inulin. Suggested to maintain normal appetite, digestion and performance during hot weather, diet changes, shipping & receiving and during reduced diet intake.

Feeding Directions: Provide 1 capsule per calf orally daily for up to three days. Place capsule into a balling gun. Hold the head of the animal in a slightly elevated position and place the balling gun into the back of the mouth. Deposit the capsule, insuring that the animal swallows the capsule completely.
