*Live in such a way that if someone spoke badly of you,  
no one would believe it.*

**Citrine Energy** is a consulting firm that is committed to providing superior client service and creating effective solutions for today's energy's challenges.

Our Employees are experienced professionals in the Power and Oil & Gas Industries. Let us serve you and your projects with a focus on safety, schedule, budget, environment, quality, and technical competence.

### The Citrine Energy Distinction

We support our clients from project inception to the commissioning of the fully operational facility. We work to stay at the forefront of safety and environmental awareness while working to increase the application of these concepts throughout every project.

Each project is managed by our team of highly experienced personnel, incorporating the services of various professionals in the related fields with whom we have established an excellent working relationship. Citrine Energy has expertise in civil, mechanical, process, electrical, and structural engineering as well as specialty services in construction and commissioning, such as field inspectors and project managers.

Citrine Energy and its employees value the professional reputation that it has built over the years. We are dedicated to servicing our clients and understand the importance in meeting project schedules, honoring commitments, ensuring quality, and providing innovative solutions to difficult challenges.
