Size - one size

Color - Black

SHOP AT AMAZON

- **ULTIMATE PROTECTION from COLD, WIND, DUST & UV:** Our fleece mask balaclava protects you against the elements whether you blaze down the slopes like Shaun White, shovel snow faster than a John Deere snowblower or motorcycle in the desert like Mad Max.
- **ULTIMATE COMFORT ON COLD DAYS:** What do surfing wetsuits and our balaclava have in common? They're both made with neoprene, a waterproof, flexible material that keeps you dry as you bomb down your runs. Your neck is protected by thick, heavyweight fleece.
- **ULTIMATE VERSATILITY:** Wear your balaclava on its own or under a helmet. Wear it as a full face mask, open balaclava, half ski mask or neck gaiter. Just don't wear it in an airport or bank! People use our balaclavas for skiing, snowboarding, riding, ATVing, hunting, construction, warehouse work and shoveling snow.
- **ONE SIZE FITS ALL NOGGINS:** with our 92% polyester 8% spandex blend, our balaclava will fit comfortably, even if you have an Einstein-sized noggin.
