Don't let the cute lipstick design fool you. The pink lipstick container disguises a canister of REAPER™ OC police strength pepper spray. The lipstick sized can shoots up to 10 feet (twice the range of competitors) stopping an assailant in their tracks well out of reach. There is no brand on the product, so it will look like an ordinary lipstick until you empty it's contents on their face. You can

buy other pepper sprays that look like this... but don't be fooled. You want the REAPER™ version police strength pepper spray.

In order to offer such low prices on name brand product we manufacture and ship in bulk, which means without retail store packaging. We ship the items in a sealed bag with REAPER™ user instructions.

- **HOTTEST** : 10% Police Strength OC Pepper Formula - Oleoresin Capsicum is a naturally occurring substance, derived from hot peppers
- **UV DYE** : leaves an invisible marker on a target, which may help law-enforcement identify an attacker
- **STREAM SPRAY** : best for long distance and easy to aim
- **10 SECOND PAYLOAD +** : Up to 5 bursts of 2-3 seconds each (*but you should empty the whole can on their face!*)
- **LONG RANGE** : Sprays up to 10-feet - twice as long as competitors
- **BULK PACKAGED** : Does not include retail packaging, ships in a sealed shipper bag from REAPER™
