Lumenaide Headlight Clarification Kit

Lumenaide Headlight Clarification Kit

The Lumenaide Headlight Restoration Kit is the most innovative in the automotive industry and the process is without question the most efficient! Improve your headlights in just 10 minutes! Lumenaide does not require you to sand away valuable layers of your headlight lens which can compromise the integrity of the polycarbonate surface. In most other competitive processes you are required to sand through as much as 25% of the lens surface leaving it more susceptible to future damage from stone chips and UV degradation. Lumenaide Clean starts by chemically removing the outermost discolored and damaged surface while conditioning and priming the surface. Once cleaned and primed the lens
