

FOR 2-4 PLAYERS | AGES 7 AND UP

GALACTIQUEST

WIN THE RACE TO CONQUER SPACE!

This just in from the Intergalactic News - new planets have been discovered in a nearby solar system! Strap on your space suit and jump in your rocket; it's time to blast off to battle!

To win the galaxy, you'll need to conquer more planets than your opponents and defend the planets you have already conquered. Plant farms for income as you fortify your defenses, and increase your offensive power for when it's time to battle! Victorious players win control of new planets, while the losers are sent back to their home planet to try again. Once all of the planets have been conquered, the player with the most planets wins!

GalactiQuest™, designed by Ellie Skalla, was the Grand Prize Winner of the 2017 Young Inventor Challenge at Chicago Toy and Game Fair.
