

SENTRY SMOOTH-KOTE™ - BARREL AND BORE TREATMENT

Innovative Molybdenum dry lubricant & barrel treatment. Protects internal surfaces against friction, fouling, and wear. Fast drying and micro-bonds to metal for excellent lubrication from -65°F to 650°F

- Non-stick shield repels dirt and eliminates grime
- Extreme fouling reduction enhances accuracy, bullet velocity, and reliability
- Bore treatment without the build-up, no need to adjust charge weight
- Makes routine maintenance simple

DROPPER BOTTLE	14ml/0.5oz	91070	\$10.99
JAR	56ml/2oz	91030	\$16.99

SENTRY HI-SLIP™ GREASE

Synthetic Molybdenum blend waterproofs and prevents rust, even in salt water. All the benefits of oils but stays put – will not migrate from extreme temperature changes.

- Stable from -65°F to 650°F
- Exceeds mil-spec for moly grease
- Excellent for smoothing actions
- Great for locking lugs, easier lock-up
- Prevents galling even under high loads and extreme conditions

	SIZE	PART #	MSRP
