

Who are Global Lifestyle Assurance Specialists

Companies claim a lot, but we prefer to act on the basis of what we promise. Avari World focuses its platforms around an elite group of individuals who we refer to as Global Lifestyle Assurance Specialists (GLAS).

These Specialists, who are members of the Avari Task Force, are comprised of current and ex law enforcement officials who have dedicated their lives to serving our nation domestically and internationally. SWAT and SEAL team backgrounds and former secret service agents to the President of the United States of America, to leading state and federal law enforcement for nearly three decades, our team is experienced like no other.

Global Lifestyle Assurance Specialists are the trained, perfected, and experienced personnel who will provide exemplary service. Contrary to other companies, our team serves as your confidant and elite unit of executive protection, with the added resource of dedicating themselves as your travel managers on the ground. With experience and intelligence on over 40 countries across the globe, you will be in awe at the humility of this team and how they serve you with the utmost level of respect and dignity.

Avari World executes travel management with an unmatched level of perfection, measured by its success in fulfilling your every request. Beyond our attention to detail, we painstakingly make your security the central focal point. While on a journey with GLAS, you will understand what it means to travel in a way that few have experienced.

Meet our team of esteemed specialists and allow us to deliver the seamless secure travel you have come to deserve. Welcome to Avari World!

Ali Sheikh
