

NETTM

Network Engineering Technologies, Inc

24/7 Help Desk

From planning and design, phone and data cabling, and fiber and electrical to point-of-sale installations and digital signage, NET knows construction. In fact, our construction team has helped drive the successful grand openings of more than 8000 new, remodeled or reset retail stores and pharmacies across North America to date. Whether you're opening a big box or small storefront, trust NET's expert project management team to provide custom, future-focused solutions for your new builds, remodels and resets.

National Rollouts

Rollouts are what we do. From server and point-of-sale replacements and upgrades, to adding a thin client or printer, or changing out debit card readers—NET does it all, whether you're launching new hardware or software in 500 locations or 5,000. Our retail and pharmacy experience and dedicated project managers mean you can count on NET to plan, execute, control and close your project on time and within budget.

Construction

Maintenance &
Support

We know your critical technology systems are essential to your business operations. So we developed a results-oriented approach and adhere to a proven PMP methodology that delivers the most efficient managed service and maintenance team support in the industry, ensuring your communication systems remain up and running 24 hours a day, 365 days a year. Our response time service level agreements are created to fit your specific needs, from 4 hour response times, to same day, next day and beyond.

Get unlimited technical support, 24/7/365. Our knowledgeable Help Desk staff provides remote troubleshooting and diagnostic solutions as well as remote installation and parts management services for AV, security, digital signage, traffic counting, wireless, voice and data technologies. And NET provides guaranteed call response times, customizable to your business critical needs, in as little as 30 minutes.
