

LONDON | NEW YORK

## ABOUT BRIDGE

Bridge is a curve agency established in London UK in 2014 and now representing models, influencers and artists internationally.

At Bridge we are passionate about giving our models the right platform to be recognised for their talent, not their size.

As our name suggests, the ethos of the agency is to 'bridge the gap' between standard and plus size in the fashion industry. The plus size sector has seen some exciting changes in the last twenty years and there is still vast capacity for growth. At Bridge we are proud to be part of the continued change to promote diversity and healthy, positive role models.

In 2016 we launched the UK's first men's division for bigger, broader models. Seeing a gap in the market and the need for men to be represented with greater diversity, we are pleased to include men in our remit and work towards making modelling and fashion inclusive to men and women alike.

As an agency we are dedicated to providing the highest quality representation to our models, and an exceptional service to our clients. We offer personal management and career development, and we believe that by focusing on each model's individual strengths, we can maximise their potential. This means great opportunities for our models, and enduring relationships with our clients.
