Our unique IV fluid formula, which contains potassium, glucose, sodium, and electrolytes, was created to ensure that your body gets everything it needs to properly rehydrate. With vitamin therapy, most people notice an increased energy level and overall well-being within minutes of receiving treatment.

Providing a safe, sterile environment to each of our customers is our top priority, so we take every precaution to ensure that the highest standard of cleanliness is maintained as we administer our treatments. We use top quality supplies from a U.S.-based supplier and all of our staff are fully trained and licensed. IV Vitamin Therapy generally takes approximately 30 minutes or less. There are very few side effects to getting an IV treatment. We use extremely small needles and catheters, as well as numbing medicine, so the entire experience is virtually pain-free. You may experience soreness or bruising around the injection site, but that is not common.

Our clinic is located on Highland Drive, just minutes from the World Famous Las Vegas Strip. We accept pre-booked appointments, walk-in patients, and offer **house calls** where we come to your hotel room to provide you with an **IV hangover cure**. **Hangover supplements** are available for purchase.

All our hangover cures use a small, pediatric IV and are administered by a medically-licensed staff member. During the treatment, you will receive a special formulation of essential IV medications and IV hydration you need to get you back to your vacation faster. Even though our hangover cures are formulated to tackle different levels of hangovers, they all have the same core benefits.

**HANGOVER IV CORE BENEFITS:**

- Relieve miserable headaches, nausea, and vomiting
- Re-energize and rehydrate your body
- Improve your appearance

Hangover Heaven IV Hydration is the only medical practice in the world dedicated to the treatment, prevention, and research of hangovers. We have served tens of thousands of clients with our hangover treatments. [Dr. Jason Burke](#), the founder of Hangover Heaven IV Hydration, is a Duke University trained anesthesiologist and has dedicated his career to ending hangovers. Dr. Burke and his team of physicians, nurse practitioners, and physician assistants are experts at hangover cures and IV hydration.

Our oxygen bar services do not require a special license, as oxygen bars use “commercial grade” oxygen, which is approximately 95% pure. Medical grade oxygen is 98% or higher. Our staff is highly trained and will provide an excellent experience for your customers.

We are fully insured and provide the necessary staff, equipment, and signage. We can provide you with the specifications to have artwork created, or we can also put you in touch with our local graphic design and printing company to make any necessary signage or materials.

The cost for our oxygen bar service starts at \$1250 per 8 hour day to treat up to 100 clients per day. At a recent SEMA, we had an average of 200 clients per day use our oxygen bar.

We can also provide our [Hangover Heaven nutritional supplements](#), or gift cards for our [IV services](#) which are provided at our clinic off-site.
