Question: I have an Iwatch Series 4 40mm will this be suitable and fit correctly?

Answer: I had the same query, and yes, this watch strap does fit perfectly. The quality/price is high & the product is good

Question: Does these Apple watch bands feel like really hard material or they got some sort of soft feeling to it if that make sense?

Answer: Hello. I do know what you mean. The leather is soft. It is not like a handbag type of leather it is more like a waistcoat type of leather. Very comfy to wear. It does not chafe because it is soft. It is firm enough to hold its shape and lets you easily do the buckle up. Hope that helps.

Question: What is the buckle of this Apple watch strap made of? Is it nickel-free?

Answer: Seems made of stainless steel metal, however it is very durable and hasn't broken, I have had mine for quite a while now and it hasn't broken.

★★★★★ Excellent

"So I've had it on my wrist every day for a month now and I must say I'm very happy with it. If anything it is actually pretty satisfying to wear. This strap is made entirely of leather, check out other bands as they are often only leather on the outside and the inside is some man made material. That splits. This great value strap is well made sent on a nice box that would make it a great gift.
I'm impressed, must look for similar in other colours. A great addition to my ever expanding Apple Watch band collection. Couldn't recommend highly enough, comfortable straight out of the box and can only imagine it getting even more so over time. As all Apple Watch owners know a simple swap over of the strap can change the watch for

any occasion. This strap may now over take my black stainless steel as my go to going out strap and is certainly comfy enough for everyday use. Classic and classy design, treat yourselves. ☐☐"

The band itself feels great and looks quite good, but after 1 week of usage the inner spring won't lock and the apple watch will slide... Haven't had an accident yet, but the sensation of knowing that is loose made me go back to its original band. Hopefully they'll fix it in the future.

★★★★★ Looks great - good quality

Looks great. I have it on the smaller 38mm watch and it looks fab. I am pleased with the quality of the strap and the finishing is really good. Dispatch was prompt and the item well packaged. I have only had it a few weeks but so far I am very pleased with it. It connects simply to the watch making it easy to change and fits very well to the watch face itself. Good quality, the colour is really nice - goes well with my brushed steel Apple Watch. This Apple Watch Band is Excellent, vey nice supple brown leather at a Excellent price. I recently spent £169 on a blue leather Apple Watch strap and believe me this Watch Band is just as good if not better. I would highly recommend this excellent product. I also received very good service from seller. All in all I am very pleased with this item as well as from the service I received from this merchant. 5/5.

★★★★★ A great alternative to the genuine Apple leather bands

May 6, 2019

Color: Grey | Size: 42mm/ 44mm | [Verified Purchase](#)

Arrived on time and I was very impressed with the quality of the band at such a good price.This is one of the best (if not the best) leather bands for my Apple watch that I have ever owned. I wear this everyday and I have had this on my series 3 and now my series 4 Apple watch. Stylish. Perfect for formal events dates restaurants etc. The band is excellent quality and has absolutely stood the test of time as far as I am concerned - I have owned this for 6+ months now and it has minimal signs of wear and tear. Excellent stitching and fit for the 42mm / 44mm series of Apple watches.
